

DESERT RECLAMATION & ANIMAL WEALTH
Balanced Life Cycle

Evagro is a promise to manage and respect the natural ecosystem that we all rely on. We support Mother Nature and create the optimum environment for naturally healthy, high quality goods to grow.

The Evagro Story

- ❑ Evagro started in 1996 with only 160 acres and was based on a mission to reclaim the earth by turning desert land into productive farmland.
- ❑ The initiative was launched under the umbrella of the Armanious Group by the founder of the group.

The Evagro Story

- ❑ Today more than **2,000 acres** of rich agricultural and during this decade, **15 wells** were drilled and a complete tissue culture infrastructure was installed.
- ❑ We are **Global G.A.P. accredited** and export to many countries including Germany Switzerland, and Malaysia.

Strategically located in **Egypt**, Evagro is in the **center** of the **MENA** region and the **world** reducing both the **time** and **cost** of freight

We support Mother Nature and create the optimum environment for naturally healthy, high quality goods to grow.
