

TIJ1800-MINI Plus

Thermal Inkjet Printer

Advantages:

1-Compact-size and Portable :

A portable compact sized hand jet with 4.3-inch touchscreen which provides an enhanced user interface.

2-friendly UI and interactive Design:

Simple and easy user interface for easy operation.

3- Automatic ink Identification:

Automatically identifies and selects the proper firing for the best print quality

Printer's features

Easy Operation

The Printer has a touch screen display with simple application interface. Users could operate and maintain without any special training. When the ink in a cartridge is depleted, the empty cartridge is the only one that needs to be replaced.

Printing Feature

- High speed printing
- Printing file could contain text, variable data (like time/date, shift code, and counter), also barcode, and logo.
- Printing lines could be up to 6 lines limited to 0.5"
